RESUME

As of Oct, 2019

Seeking: Remote software engineer position focused on web and database development.

Profile: I have worked as a Sr. Software Engineer for 10 years, assigned to the Navy at the Crane Naval Warfare Center. Most of that time (the last 7 years) I have been a full-time remote employee. Prior to Crane, I was an independent consultant, developer and small business owner for fifteen years. Historically, my roles in IT have included project manager, lead developer, business analyst, consultant, IT manager, architect, DBA and mentor. My strengths are project management, problem-solving, web application and database development. I believe in standards-driven development and in a customer service philosophy. I hold a DOD Security Clearance.

IT Skills:
